## Barren Year For Tourists Has Already Begun

The 1961 tourist season now well under way in Mississippi has a good chance of bettering last year's volume of \$300 million since the tourist inquiries during the first quarter have shown a hefty increase over those for the same period in 1960. More Americans will be traveling and looking for interesting things to see and do. Mississippi is in a strategic position with many attractions for visitors and many more being developed. All signs point to a record tourist volume this year.

## New Paper Uses To Benefit Mississippi

New uses for paper being developed in this country and across the world can have real significance in the future of Mississippi's expanding production of pulp wood. The next decade is certain to produce new paper uses undreamed of today. Mississippians can take full advantage in resources and opportunities in timber production and processing. Idle acres planned now in pine seedlings can be a sound investment for landowners.

# WAVELAND NEWS

MRS. BEVERLY ZIMMERMAN  
WAVELAND, MISS.

PHONE HO 7-4324

Congratulations to Brother Vincent Henderscheid, C.S.C. on the occasion of his fiftieth anniversary of his Religious Vows on Sunday April 23rd.

Solemn Benediction was held at the St. Louis Cathedral at 8:00 p.m., and a Jubilee Banquet at the Royal Orleans Hotel, in N. O. Brother Vincent is a teacher at Holy Cross High School in New Orleans and has been an inspiration to many boys.

For twenty years (1939-1961) he was director of his beloved Holy Cross Villa in Waveland. Summer vacations and weekends always find him here and most of the time with neighboring boys following him around the camp.

Mr. and Mrs. Sidney Bourgeois motored to New Orleans Sunday to attend the Jubilee celebration for Brother Vincent.

Mr. and Mrs. R. W. Zieffe and family were over for the weekend at their home on Terrace St.

At the home of Robert Ruppels on Tide St., Boy Scout Troop 80 enjoyed the weekend. In the group were 10 Troop leaders and 35 Scouts. Mrs. Ruppel also entertained the mother of the Scouts over the weekend.

Seen on the corner of Bourgeois St. and Coleman Ave. Saturday morning was Mr. Ed Phillips and Mayor Garfield Ladner marking off parking space in street on side of the Town Hall.

Mr. and Mrs. Thomas Hall and new daughter Kim were over to visit. Mrs. Hall's father, Mr. B. P. Cockshott on Jeff Davis St.

Mr. and Mrs. Alec Hunter and Dianne enjoyed barbecued chicken with Mr. and Mrs. John Munch and Linda on Sunday.

Mr. and Mrs. Lloyd McLaughlin spent the weekend at their home on Ship St.

Mr. and Mrs. Sam Manfre and daughter Catherine were over for the weekend at their home on Naman.

Get well wishes are extended to Mrs. Ray Michael Bourgeois, who has been ill, but she is feeling much better now. Mrs. Lydia Bourgeois has been here for the past week with Mrs. Bourgeois during her illness.

Guests of Mrs. Rosie Bourgeois and Mr. Henry Nechaie, Sunday were Mrs. Augusta Dietrich and Miss Gussie Dietrich.

On Saturday, Debbie Ann Weidman, Martha and Aime Lynch and Doris Davis attended a convention of New Orleans Archdiocesan Junior Sodality Union. The convention was held at Loyola University Field House.

The 4th, 5th and 6th grades of OLG were invited to attend and escorting the girls were Sister Mary Edward and Sister Alfred.

Thanks for the wonderful attendance at the dance Saturday night. It was thoroughly enjoyed by everyone. The next dance will be held on May 20th.

Mr. Calender has purchased the Johnson property on Broad and Woods St. He has really improved the property and planted many trees and shrubs which has made a great improvement in this area.

The time to apply fertilizer to shrubs, including azaleas and camellias, is usually in the spring and early summer at the time spring growth begins, followed with periodic applications up to early summer. Azaleas and camellias have shallow root systems and require frequent light applications of fertilizer. Plants should not be deficient in nutrients in the fall. Well fertilized plants are more winter hardy than are deficient plants.

## Katcha Ketchum

Wonderful weather prevailed over the weekend and fishing was at its best. While a trip to Bayou La Bonte near Mandeville with Joe Glover, Luke Elliott and son, Clay and Nina Entenaste. Catching 36 green trout and perch in the aggregate. All were caught on surface baits.

Crawfish are plentiful just now and all large. The crawfish are being caught along the highways and in the state and county parks. They are real treats especially with baked Irish potatoes cooked in same water as the crawfish are boiled with the right seasoning and garlic added. There are two types of edible crawfish. In this section that are caught and marketed as human food—the red or swamp crawfish and the white or river crawfish.

The largest of the two are the white river crawfish which are caught in rice fields.

Kenny Morrison and Jim Williams caught a sack of crawfish Sunday which were for the crawfish boil held Sunday night at the Haggerty home. They were caught in the Michoud area on Highway 90.

Other species of crawfish in Louisiana are small and not good for human consumption but are excellent bait for catching various kinds of freshwater fish.

Learned of another kind of fish which are rarely heard of these days, a small type of sardines which were caught in the Mississippi River by the old timers. These sardines were caught in large hoop nets. They were delicious for frying and were dried and used for bait. They appeared in March and April and were caught on the full of the moon.

This information comes from Mrs. Alice Baudry of La Place, La., who remembers way back when!

Met a bunch of Bay St. Louis summer visitors who are waiting for vacations to visit the Bay and do some fishing—Adam Morrison, Irvin Ballard, Arthur Schulties, Mac Raney, George Fanning, Jim Williams, Harold Brennan, etc.

Mr. and Mrs. Andy Mendell made a nice catch of fresh water fish Sunday. Both are old timers at the fishing game.

Big plans are being made for the Gulf Coast Deep Sea Rodeo to be held July 1 through July 4th. There will be more information on this later. Information can be obtained from the Mississippi Deep Sea Fishing Rodeo's headquarters at Gulfport, Miss.

## MOVIES—SEVEN WAYS FROM SUNDOWN

On gripping wave of pulse-pounding excitement, Universal International's suspenseful color saga, "Seven Ways From Sundown" starring Audie Murphy, Barry Sullivan, Venetia Stevenson and John McIntire, plays Sunday and Monday at Star Theatre.

Told in Stroke of bold adventure, producer Gordon Kay has fashioned a top notch story of love and hate in the old West, heightened by strong performance from a stellar cast.

As a youthful Texas Ranger whose sense of duty is torn by violent loyalty to a friend, Audie Murphy gives a performance of great sensitivity and drama, one that will, no doubt, win the talented Texan war hero many new fans.

And, as the sinister outlaw whose personality almost charms him out of the arms of the law, Barry Sullivan's acting is no less outstanding. Long a popular screen hero, Sullivan's villainous emoting will easily place him on the audience's most-hissable character lists.

Portraying a beautiful frontier girl in love with Murphy, Venetia Stevenson seems type cast. One of Hollywood's most photogenic young actresses, Miss Stevenson's carefully-etched performance gives lie to the old rumor that beautiful women can't act. She is perfect in the role.

# RE-ELECT Your Present City Administration

Last week we presented for your consideration the facts about the present financial condition of our City and the status of our present millage rate as compared to 1953.

In this issue we would like to present more facts about the record accomplishments of your present administration. The following street construction projects have been completed since 1958:

Railroad Avenue — Ramoneda Street — Easy Street — Caron — Washington Street, from the Old Spanish Trail to the City Limits — State Street between St. Francis Street and the Old Spanish Trail — Keller from Bookter to St. Francis Street — Watts Street from Sycamore to B Street — Union Street from Necaise Street to Agnes Street — Agnes Street — Marti Street, State Street from Touline Street to the Corporation Line — Highway Avenue — Carroll Avenue from Dunbar to the Corporation Line — Rouelle from Seminary Drive to Dunbar Avenue — Seminary Drive from Dunbar Avenue to Highway 90 — Webster Street from Dunbar to Seminary Drive — George Street from Dunbar Avenue to Necaise Street — Leopold Street — City Street from Dunbar Avenue to the Corporation Line — Thomas Street — City Limits — Austin Lane — Julia Street from Dunbar to the City Limits — Street and "B" Street.

The above listed improvements along with incidental drainage, culverts, and catch basins were made a 3d completed with funds from a Bond Issue which was validated in 1953. We were able to service the bond and interest on this Bond Issue with NO INCREASE IN TAXES.

In preparing the budget in September for the present fiscal year, Council set aside \$50,000.00 from the surplus funds in the Natural Gas fund for a special Street Improvement Program. Following is a program on the street improvement program which is now in process of being completed.

Carroll Avenue resurfaced from Dunbar Avenue to North Beach — Street resurfaced from City Limits to North Beach — Third Street resurfaced from St. Charles Street to Brookter Street. A leveling course has been laid to Sycamore Street from Third Street to Hancock Street and catch basins sub-surface drainage have been rebuilt. Clay gravel base has been laid on Bay Oaks Drive, Chartres Street, Sycamore Street from St. Francis to road Avenue and on Paradise Point Drive. These streets will, within the four weeks, be hard surface, weather permitting.

With the cooperation of the Board of Supervisors, North Beach Boulevard has been resurfaced from the Yacht Club to St. Charles Street. Included in present Street Improvement Program are plans for applying a leveling course on Ballentine Street from the Old Spanish Trail to South Beach — a leveling course on Citizen Street from the Old Spanish Trail to South Beach — a leveling course on Court Street from Second Street to South Beach — a leveling course and widening of DeMontluzin Street—a leveling course on State Street from me Street to North Beach — a leveling course and widening of Bay View from Second to North Beach. Also, construction of sub-surface drainage will include catch basins on DeMontluzin Street from Touline Street to me Street. This sub-surface drainage project will eliminate and alleviate the existing condition which have been occurring in the area of Main Street, Street, Touline Street, St. George Street and Carroll Avenue during periods of excessive or heavy rains. This sub-surface drainage program will double capacity of our present sub-surface drainage system in that area.

These are NOT CAMPAIGN PROMISES. Funds are available for the construction and completion of all of these improvements.

We stand on our past record as our assurance and guarantee to voters and citizens of Bay St. Louis, that we will continue to work together as a team, aggressively and with foresight for the continued progress and development of our City.

Support and re-elect John A. Seafide, Mayor — J. Cyril Glover, Commissioner and Warren E. Traub, Commissioner.

## NATIONAL HOME DEMONSTRATION WEEK, APRIL 30 - MAY 6

STATE COLLEGE, Miss. — Home demonstration work and its role of improved family living and leadership development will be in the spotlight during National Home Demonstration Week, April 30 - May 6.

Mrs. John H. Moody, of Poplarville, Mississippi Home Demonstration Council president, invites people throughout Mississippi to join with the 32,000 home demonstration club members in observing this week.

"To acquaint more people with the wide coverage of this program of Agricultural Extension Service and to emphasize its contribution to the home and family living is but one aim of the National Home Demonstration Week observance," Mrs. Moody said.

"The home of today that is building the world of tomorrow is a different home than most homemakers of today knew as a child. We must be continually learning and using research to bring the family and home into fuller and more satisfying relationship with the community."

Home demonstration clubs everywhere are always searching for a better way to do more for home, family and community and to inform other of their findings. Mrs. Moody said. She described home demonstration work as an "each one teach one" program.

In Mississippi club members will be telling the story of continuing education by tours, exhibits, membership campaigns, coffee parties, special church services, special pages and sections in news-

papers. Home demonstration clubs everywhere are always searching for a better way to do more for home, family and community and to inform other of their findings. Mrs. Moody said. She described home demonstration work as an "each one teach one" program.

**IT'S FOR YOU**

**THE CHURCH FOR ALL... ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	I Corinthians	12	12-21
Monday	Proverbs	4	1-4
Tuesday	Matthew	8	1-4
Wednesday	James	24	1-4
Thursday	I Corinthians	12	12-18
Friday	Genesis	40	23-29
Saturday	Matthew	28	12-30

When someone says, "It's for you," our minds begin to buzz with questions: Who is it? What do they want? Good news? Bad News? Work? Pleasure?

*It's for you!* Commanding words that summon our immediate attention. And those words apply as well to the Church as they do to a telephone call.

The Church is for you! Its services of worship, its program of religious education, its comforting ministrations in time of spiritual crisis... all for you!

And the Church has a vital message—good news for a discouraged world. It has a glorious work before it—a happy fellowship for men, women, and children of noble purpose.

The Church deserves your support. *It's for you!*

## HOME AGENT'S NOTES

MARCEA F. HUGHES  
Home Demonstration Agent

Should I put bananas in the refrigerator? The answer is usually yes, but sometimes no.

Bananas ripen best at a comfortable room temperature. At temperatures lower than 55 degrees the fruit does not ripen.

If bananas are fully ripened (black with brown), you can put the ripe fruit in the refrigerator to slow the ripening process. By doing this, you may be able to keep a ripe banana usable for two or three days, at the most. But it would probably be over-ripe in a day's time at room temperature.

After you take the bananas from the refrigerator the peel may be discolored, but the pulp will be flavorful.

### BARBECUE PLANNING GUIDE

When planning a chicken barbecue for a number of people it's a job to figure how many chickens and rolls and drinks and how much charcoal and other things to buy and prepare. Available at your home agent's office is a guide giving amounts you need for 10, 20, 30, 40, 50 or a thousand people. Ask for a copy.

All of the foods suggested on this guide can be eaten without forks and spoons.

### MAY PLANTINGS

Broilers and fryers are in the spotlight on the plentiful, fresh fish for May. You may want to put that barbecue planning guide to use right away, with plenty of tender, young chickens available at good prices.

Other foods on the list are cabbage, potatoes, and grapefruit, turkeys, milk and dairy products and canned freestone peaches.

If you want to make your menu a little fancier, add cabbage slaw or potato salad.

**ROSE CUTTING RULE:** A good rule for cutting roses is to leave at least two leaves between the cut and the main stem. For the best keeping and best color cut in the late afternoon. Cut the bud just before the petals start to unfold.

### DID YOU KNOW?

Farming is our Nation's biggest industry. It employs over seven million workers.

Peasants average about \$1.37 an hour for their labor; a factory worker earns \$2.29. Hourly earnings of food marketing working average \$2.12.

One farm worker produces food for himself and 24 others.

Winning Blue Ribbon Honor for the Hancock County Home Demonstration Council at the Southeast District Dress Revue was Mrs. M. G. Eccles of the Flat Top Home Demonstration Club. Mrs. Eccles modeled a black and white cotton print made with a straight skirt, the neckline was emphasized with a round collar and bow. With this she wore black patent accessories and white pique hat which she made herself.

Mrs. Eccles will represent Hancock County at the District Council meeting at Jones Junior College on May 5, 1961 and at Mississippi State University at Mississippi State College in June.

Others from the County attending were Mrs. Boyce Pearson and daughter Patricia, Gainesville; Mrs. Hayward Burleigh, Clarendon Harbor and Mrs. J. F. Fargason and Mrs. Davis from Flat Top.

A workshop on Glass Mosaics will be held Wednesday, May 3rd in the Home Agent's Office. All members interested are invited to attend.

Hancock County Home Demonstration Council will meet Friday, April 28, 1961 in the old Gainesville School Building. Aaron Academy and Gainesville Home Demonstration Clubs will be hosts. The meeting will begin at 2:30 p.m.

Mrs. Ling, County Health nurse, will bring a special program to the group.

All Council members and Home Demonstration Club members are urged to attend.

**Bayou LaCrosse HOC**  
Met April 18

The Bayou LaCrosse Home Demonstration Club met Tuesday afternoon, April 18 at the home of Mrs. Vertie Miller. Mrs. Walter Charles and Mrs. Dalton Jones were members who were introduced to the group.

The thought of the month was "Life is not so short, but there is always time for learning" and the roll call was answered with "My favorite color is purple."

Plans for the month of May were discussed and the next meeting was set for May 19 at the home of Mrs. J. B. Jones.

## Mississippi Near Top Among Rice Growing States

STATE COLLEGE, Miss. — Mississippi, 1960, among rice growing states, profits from research on the crop at the Delta Branch Experiment Station. According to Rice Millers' Association reports, Mississippi rice average in 1960 was exceeded only by Louisiana, Texas, Arkansas, and California.

Dr. H. R. Caffey, representing in charge of rice work at Delta Station, has recently published detailed results of his tests with 25 varieties. He also grows 55 other experimental varieties to see how they perform locally.

Long-grain varieties are most popular in Mississippi, Dr. Caffey says, largely because they bring better prices. They were grown on 92 percent of the state's rice acreage last year. Stabenot 59 is the leading variety in Mississippi and in the South. It matures in mid-season. Century Palms 231 is grown for its earliness but it has relatively low milling yield and poor cooking quality. Nana, Zenith and Goldrose are medium-grain varieties grown in the state. The latter, while resistant to hoppers, has weak straw and lodges badly in the Delta area.

Extra early variety, although not now produced in the state, offers some advantages to Mississippi growers. If seeded early, they may produce two crops per year. Another advantage is the flexibility in planting date. They can produce from an extremely late seeding. Fourteen such experimental varieties are being studies at Delta Station.

Tests show that varieties now being grown in Mississippi are generally high in yield and quality. However, Dr. Caffey says many experimental varieties exceed them in yield or quality or both, indicating increased returns from rice growing in the years ahead. His report is published in the April issue of Mississippi Farm Research available from the Experiment Station at State College or Delta Station at Sunville.
